

# SUPPLYING ACCURATE NUCLEAR DATA FOR ENERGY AND NON-ENERGY APPLICATIONS

## SANDA

**Final general meeting 2024**

**Report from the SANDA coordinator**

E.M. Gonzalez-Romero (CIEMAT)

on behalf of the SANDA Euratom project

H2020 Grant Agreement number: 847552

# Report from the coordinator

Thanks to all the participants in the meeting and to the members of SANDA.  
Despite large difficulties and limited resources,

**Incredible amount of work performed in SANDA has been presented in this meeting, including:**

**New detectors**

Already in routine use in our laboratories

**Many New measurements**

Fission and fission yields

Capture,

(n,chn),

Inelastic,

Decay,...

**Targets**

Preparation, definition and Isotope Separator

**Evaluation and uncertainties**

Reactions,

Decay,

High energy,

Developing and validating tools

**Validation** by simulation, benchmarking and new integral experiments

# Report from the coordinator

Still, we have about 4 months of work ahead to finalize SANDA (2 months till the end of the project + 60 days to report to EC after the project ends).

## Priorities for these 4 months

**To complete the pending deliverables (only 6 pending of 54)**

**Finalize scientific articles**

**Complete the SANDA continuous reporting:**

- List of publications,

- List of open data (EXFOR, ENSDF, JEFF, NEA DB, ...)

- Overview of the results and their exploitation and dissemination

- Conclusions on the project

- Socio-economic impact of the project

- Dissemination materials: presentations, project logos, diagrams, photographs and videos illustrating its work (if available).

**Start preparing Final periodic report and Final report.** We need to prepare reports of the same quality of the research and results of SANDA and shown in this meeting

# Report from the coordinator

In this last contribution to the General SANDA meeting, I need to thank to **the workpackages leaders and other members of the EXCOM**, that have provided continuous, prompt and excellent support and collaboration all over the project.

I wants to thank **all the participants on the meeting**, for the huge and high-quality research and results of which we got a glance in this meeting.

Finally, work in SANDA has not been easy but all of you made it possible and of high quality, so thanks to **all participants in the SANDA** for continuous commitment and nice collaboration.

***And for many of you lets continue our successful collaboration within APRENDE.***
