

IGWM 2025

Wednesday, June 25, 2025

Session X - Auditorium (11:15 AM - 1:00 PM)

-Conveners: Juan Garcia-Bellido

time	[id] title	presenter
11:15 AM	[28] LIGO-Virgo-KAGRA searches for continuous gravitational waves	KEITEL, David
11:35 AM	[35] Molecular Dynamics simulations of NS crust breaking strain, and continuous GW.	BARBA GONZÁLEZ, David
11:55 AM	[7] Identifying the ancestors of LIGO-Virgo-KAGRA black holes and their host environments	CALDERON BUSTILLO, Juan
12:15 PM	[29] Search for Proca-star mergers through consistent ultralight-boson mass estimates across gravitational-wave events	LORENZO MEDINA, Ana
12:35 PM	[25] Discovering supermassive black-hole binaries through quasi-periodic lensing of starlight	ZUMALACARREGUI, Miguel
